(Greedy Approach Focus)

Student Preparation

1. Create a Structured GitHub Repository

- Repository Name: HackWithInfy2025
- Folder Structure:

```
HackWithInfy2025/  
├── GreedyApproach/  
│   ├── Problem1_BuyTwoChocolates.java  
│   ├── Problem2_AssignCookies.java  
│   ├── Problem3_CoinChange.java  
│   └── ...  
├── README.md (Progress tracker)  
└── Notes/  
    └── GreedyApproach_Concepts.md
```

- **README.md** should include:
 - Problem Name
 - Problem Link
 - Approach Summary
 - Status: Solved/Unsolved/Understood/Needs Revision

2. Mandatory Setup

- Share GitHub repository link via Form.
- Update progress regularly.
- Commit each solved problem individually with clear commit messages.
